

I'm thankful for the earth, for the seasons and the skies.  
I'm amazed by e'vry living thing that grows, that breathes, that flies.  
I love that all that flow'rs started out as tiny seeds,  
And I try to find the beauty in a bunch of wayward weeds.

The simplest things around us **can take our breath.....**

**Can take our breath away.**

*I see the gentle deer as they wander in the snow.  
They stare at me in unison like there's something I should know.  
I watch the hawk in flight with his feathers like a fan.  
He is graceful and so glorious,  
A sailor over the land!*

The simplest things around us **can take our breath.....**

**Can take our breath away.**

Ev'ry living thing is special in *its own way, in its own way, in its own way.*  
Ev'ry living thing inspires us ev'ry living day!

The simplest things around us **can take our breath.....**

**CAN TAKE OUR BREATH AWAY, AWAY!**
