

The Grade 6 Monthly Newsletter

January 2019

Dear Parents and Guardians,

Happy New Year! It is the start of a new year and it is going to be a good one!

Continuing in Term 2 in Science, students are concluding Unit A: The Diversity of Life by completing Chapter 4. It will take 2 weeks and there will be experiments conducting using microscopes, slides and a new computer lab. In Math, students are learning how to divide decimals with whole numbers and will move onto geometry next. In Social Studies, students are presenting their findings on Japan and its culture. In Language Arts, the Grade Sixes continue to write journal entries based on guided questions and opinions on current events in and out of the classroom. Students meet in their guided reading groups to discuss different short stories to promote and strengthen their love of reading. In Religion, we are working through the Liturgical Year.

As a class, we continue to work towards quality of work, responsibility and organizing our time and work especially as an independent learner. As students are in Term 2 it is more their responsibility to get work done in a timely manner as this term is longer and more challenging.

If you have any questions and/or concerns about your son or daughter please don't hesitate to contact me.

Thank you for your support,

Mr. Evangelista
