

# The Grade 6 Monthly Newsletter

March 2019

Dear Parents and Guardians,

In Term 3 in Science, students will be continuing their learning on the Human Body and then Extreme Environments. In Math, students are continuing their lessons on geometry, moving through different shapes and polygons. In Social Studies, students are finishing their unit on population and will be moving towards sustainable management. In Language Arts, students will continue to write journal entries based on guided questions and opinions on current events in and out of the classroom. Students are completing our Lightning Thief Unit, which is helping to promote and strengthen their love of reading. In Religion, we start our journey through Lent on Ash Wednesday making promises of what we will give up.

As a class, we continue to work towards quality of work, responsibility and organizing our time and work especially as an independent learner. As students are starting Term 3 it is the expectation that they get work done in a timely and neat manner.

If you have any questions and/or concerns about your son or daughter please don't hesitate to contact me.

Thank you for your support,

Mr. Evangelista
